

F215 MkII

The F215 MkII offers particularly well defined mid bass from a compact enclosure. Bringing new power, clarity and output to an important yet often neglected area of the frequency spectrum.

Utilising similar bass loading technology to Funktion-One's highly regarded F218, with Funktion-One high performance drivers and an overall tuning for strong and accurate impact, the F215 delivers outstanding upper bass performance. Typically used with Evo EH or SH in a modular system with additional bass (F124, F221 or BR221).

The vertically stacked arrangement of the two horns, birch ply construction and optional wheels make for a durable, convenient and high performance package.

Features:

- Fully horn loaded for high efficiency
